

PARALLEL PLUS

TYPE

HEAVY DUTY PARALLEL HINGE SYSTEM

BENEFIT

Aesthetically pleasing sightlines, maintaining the reflective qualities, with built-in safety features

Parallel Plus - A Natural Ventilation Break Through

The increasing demand for balanced and effective natural ventilation, whilst maintaining a safe and secure environment requires a highly innovative solution.

Securistyle Limited, the World's leading provider of parallel opening solutions in curtain walls (such the as Knorr Bremse in Germany shown) launched the definitive solution to this problem in October 2007.

Unique Features of the Parallel Plus Operating System:

- Vents weighing up to 200kg* can be manually operated offering significant cost savings on motor operators
- Parallel Plus vents can be restricted to 40mm openings and still provide whole perimeter ventilation and effective air exchange, equivalent to conventional window operating systems open to 100mm or more. *(Tested and proven at the BRE)*
- Provides a safe, secure and well ventilated environment
- Adjustable parallelism compensates for building and façade tolerances
- High resistance to corrosion
- Manufactured from 304 grade austenitic stainless steel for enhanced corrosion resistance
- 12 Year Guarantee – details available upon request

austenitic
