THE COMPACT STERLING HEAVY DUTY WINDOW LOCK, TOUGHER, STRONGER, SLIMMER AND ALL TOGETHER SMARTER THAN THE COMPETITION!

STERLING LOCK DELIVERS A MYRIAD OF INTELLIGENT FEATURES

- A compact window lock that will not interfere with the internal weather gaskets of the window and will fit any drive bar.
- Fastens to Euro-groove using a 5mm Hex key without the need for transit screws. This allows quick and easy fitting of the handle at the final installation stage whilst minimising potential damage of handles.
- Product materials are of a high specification providing excellent corrosion resistance and will meet 480hrs corrosion resistance class 5 of BS EN 1670.
- Left and right hand variants available for symmetric installation on dual handle applications.
- Polymer bushing on all pivot surfaces reducing operational friction and wear improving durability and reliability.
- Inherently strong design allows lock to be used on large vents with many locking points.
- Investment cast stainless steel 7mm square drive gear.
- Endurance tested to in excess of 30,000 operations.
- Integrated euro-groove fitting system with 14mm, 15mm and 16mm groove width options.
- 18mm bi-directional throw. Available with 6mm and 10mm drive spigots.
- Fully austenitic to compliment Sterling, Storm Balanced and Parallel Hinges.
- 12 year guarantee
